## **Introduction**

Malabar Cancer Centre is an autonomous institution under Ministry of Health and Family Welfare, Government of Kerala. This is being developed as a teaching institution to train doctors, nurses and other paramedical personnel in various fields of oncology. MCC caters patient population from northern districts of Kerala and the neighboring states.

Clinical hematology department was started in MCC in December 2010. At present the department manages a reasonably good number of patients in the outpatient clinic and equal number of patients in the inpatient unit, majority of whom are admitted for intensive chemotherapy. Adding an important landmark to MCC's history, BMT program was initiated in July 2013. Thereafter MCC has been performing BMTs on regular basis.

## **Objective of the Fellowship program**

1. Gain deep knowledge in the subject, both practical and theoretical aspects
2. Learn fundamentals of BMT and the application of BMT in various hematological disorders.
3. Orientation toward basic and advanced cancer research activities
4. To actively take part in research activities of the department
5. To learn interpersonal communication skills and communication skill towards patients and their relatives.
6. To learn about the applied laboratory aspects of the subject

The aim is to provide the training foundation for those individuals who want to pursue their professional career in the field of hemato oncology . This additional expertise emphasizes critical analysis of clinical problems and development of additional skills required for the practice of this specialty, including consultation skills and multidisciplinary treatment planning, with emphasis in basic and clinical research methodologies.

It has another great vision of providing more expert hematology specialists to the society in order to provide a better quality management of disease for the people even in the lower levels of community.
